Notes:
 • All profiles are available in paint quality finish with a 2mm radius.
 • The chart above shows the standard profiles. Custom profiles are available on request at www.timspec.co.nz
 • Thickness of profiles may vary depending on species. Generally thickness varies from 19mm & 32mm for Accoya, 19mm & 28mm for Radiata Pine and 18.5mm & 28mm for Western Red Cedar.
 • For New Zealand building code, compliance & installation, please use Timspec-CertClad manuals or email technical@timspec.co.nz
 • Codemark profiles are shown (Refer profile chart above).
 • Accoya and Radiata Pine are FSC® (Look for our FSC®-certified products).
 • Western Red Cedar is PEFC® certified.
 • Not all profiles are available in every species.
